DETAILED ACTION

1. In response to the Communication dated August 29, 2005, claims 1-4 and 8-13 are active in this application.

Information Disclosure Statement

2. The information disclosure statement filed August 29, 2005 has been considered.

Allowable Subject Matter

3. Claims 1-4 and 8-13 are allowable over the prior art of record.
4. The following is an Examiner's statement of reasons for the indication of allowable subject matter: the prior art of records does not show (in addition to other elements in the claim) the following:
 - The control unit performs control such that in said erase operation the lower erase voltage is applied to a control gate of each of said nonvolatile memory cells and thereafter the higher erase voltage is applied to the control gate of each of said nonvolatile memory cells.
 - The erase voltage generating unit generates, in response to a control signal supplied from said control unit, erase voltages of two or more levels to make voltages applied to tunnel films of said nonvolatile memory cells substantially constant and applies the erase voltages selectively to a control gate of each of said nonvolatile memory cells.

- During the period of said second operation, the voltage generated by said voltage generating circuit is varied twice or more, so as to keep the voltage applied to said first insulating film within a predetermined voltage range.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael T. Tran whose telephone number is (571) 272-1795.
7. Any inquiry of a general nature or relating to the status of this application should be directed to Group receptionist whose telephone number is (571) 272-1650.
